## Welcome Message

In a world where change is the only constant, education stands as the steadfast beacon illuminating the path to a brighter future. It is the catalyst for personal growth, societal progress, and global transformation. As you immerse yourselves in the pursuit of knowledge, remember that education is not just about acquiring facts; it's about fostering critical thinking, nurturing creativity. After working in various MNCs and global banks, I've learned the importance of continuous learning and skill development. This philosophy is at the core of WeGyde's vision. We're not just here to teach; we're here to equip you for success in the corporate world or in pursuing your passions. Personally, I live by three words: Aspire, Believe, and Create. Aspire for what you would like to achieve, believe in yourself and the universe, Create something beautiful for yourself.

Wish you everlasting success!

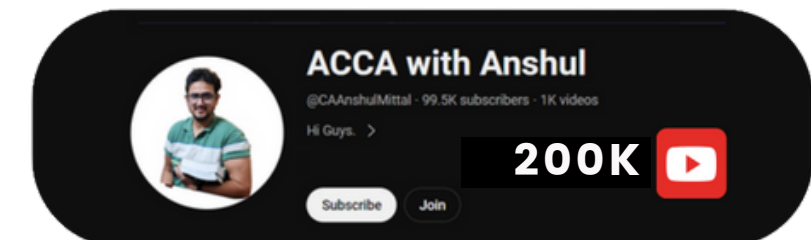

“

Nowadays as commerce is considered more or less equivalent to Medical, a lot of students are preferring commerce and in fact some medical students are doing professional courses related to Commerce. One of the best professions that a student can choose after his 12th is ACCA (Association of Certified Chartered Accountants). It is equivalent to CA (Chartered Accountant) and it is a globally recognized degree. I am here to teach you the base of ACCA which is the knowledge level or 1st level of ACCA. It is very important to have a great hold on the Knowledge level as 2nd Level (Skill) and Last level (professional) are just extensions of this base level.
